Problem Statement

Have you ever spent so much time deciding what to do next that you ended up doing nothing at all?

We spend more time **planning** our work than **doing** our work leading to

😵 Cognitive Overload

🔔 Notification Chaos

↔️ Context Switching

📉 Reduced Productivity

That's the problem Nagare was built to solve.

Meet NAGARE

Your AI assistant to attain “FLOW”

Understands priorities
Knows what matters most to you

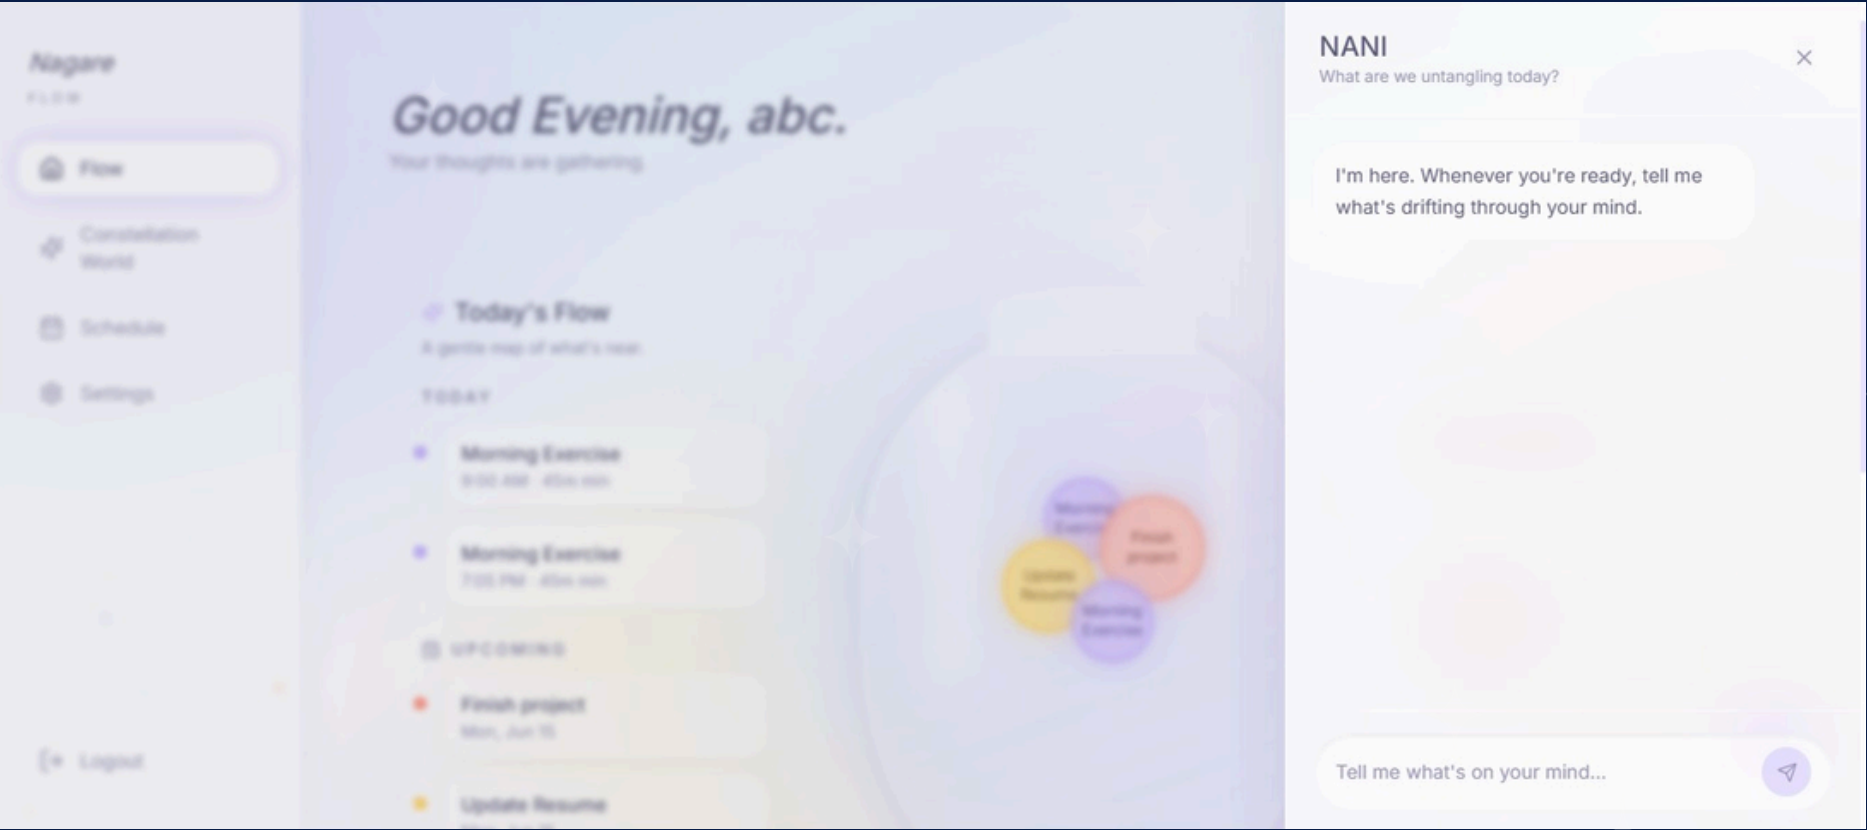

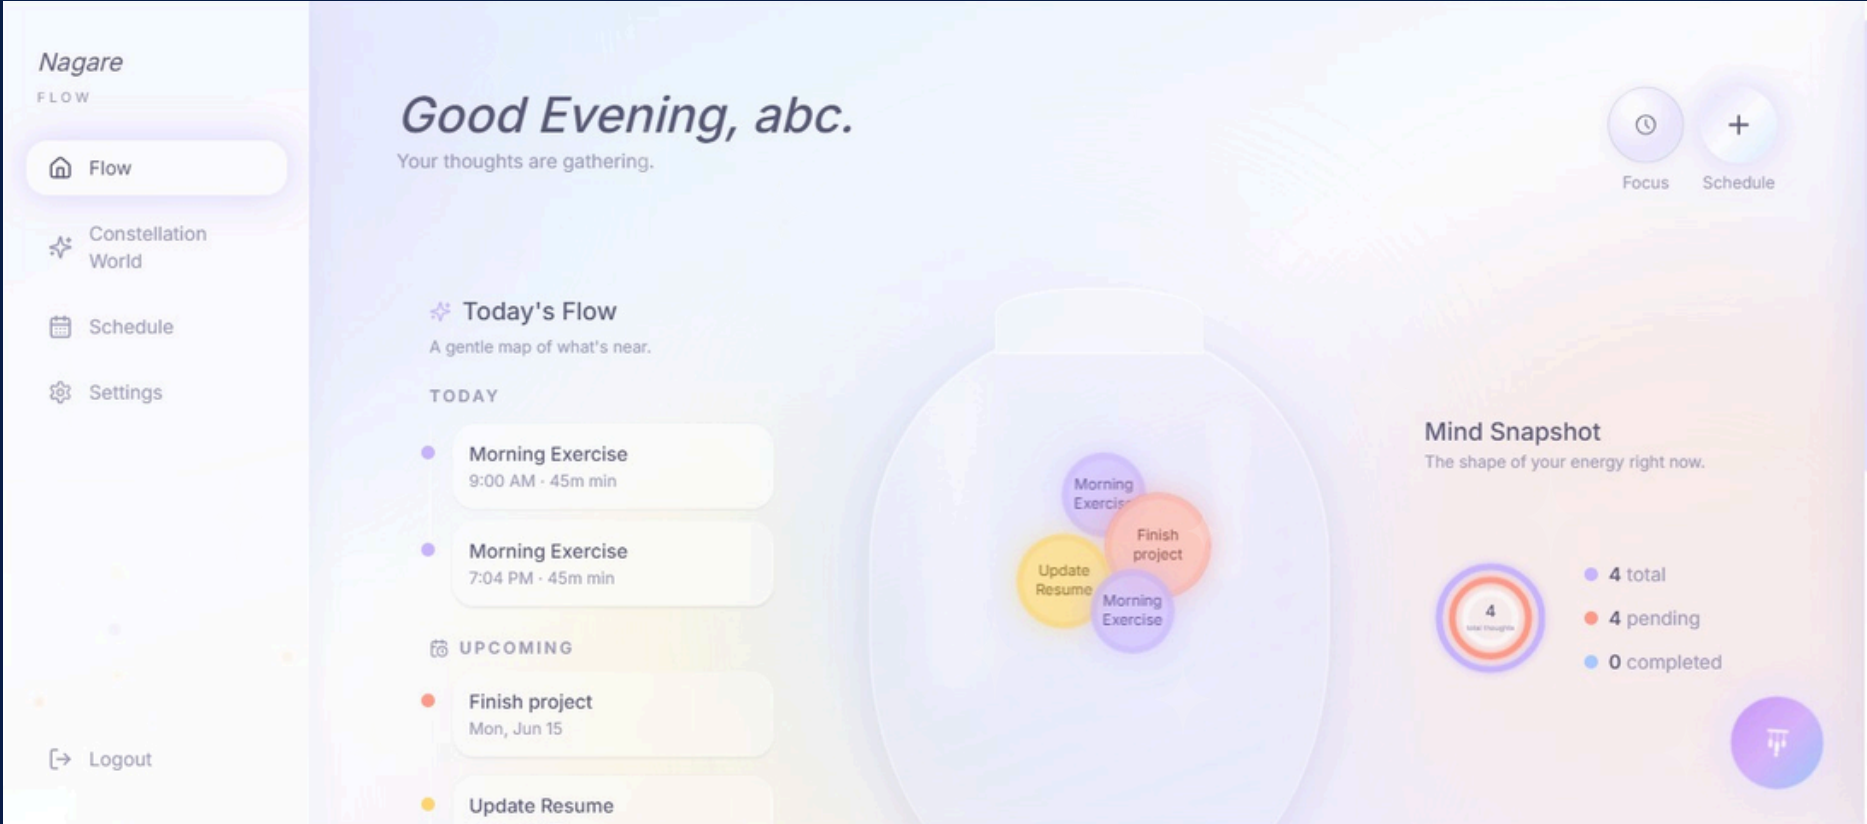

Organizes schedules
Structures your time intelligently

Adapts to changes
Flexible and responsive in real time

Focuses on execution
Keeps you in action, not planning

Key Features

02

01

AI Scheduling

Unified Planning

Adaptive Rescheduling

Architecture Diagram

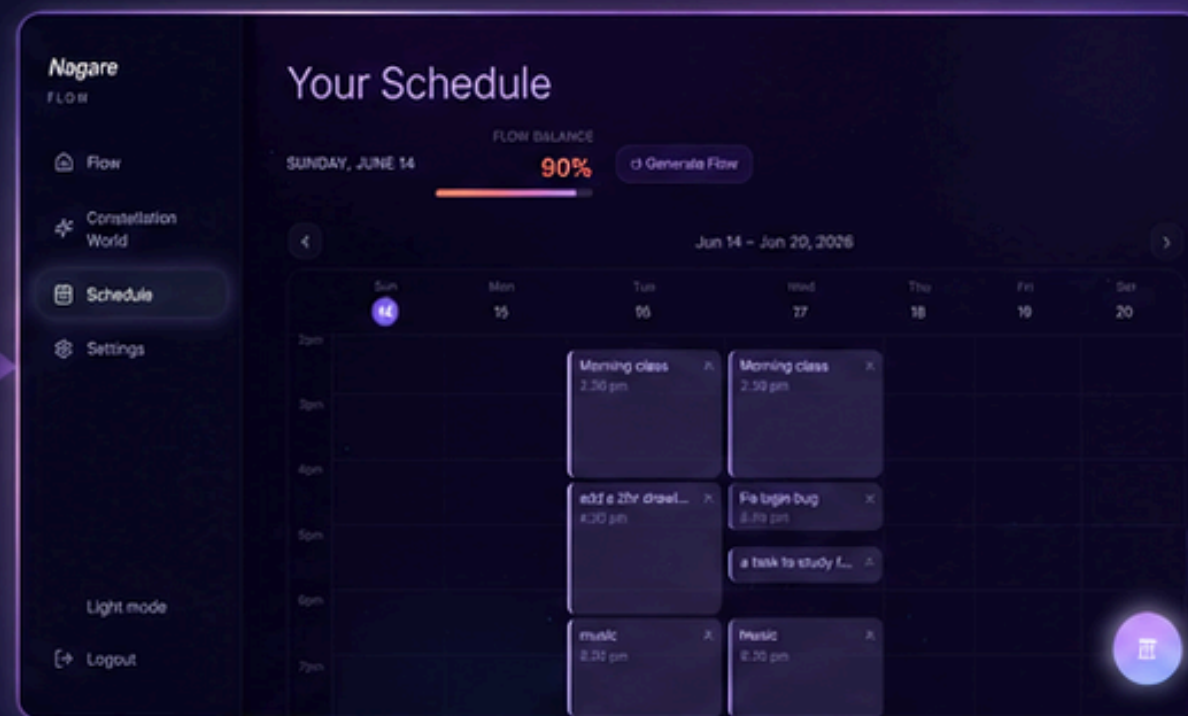

Demo

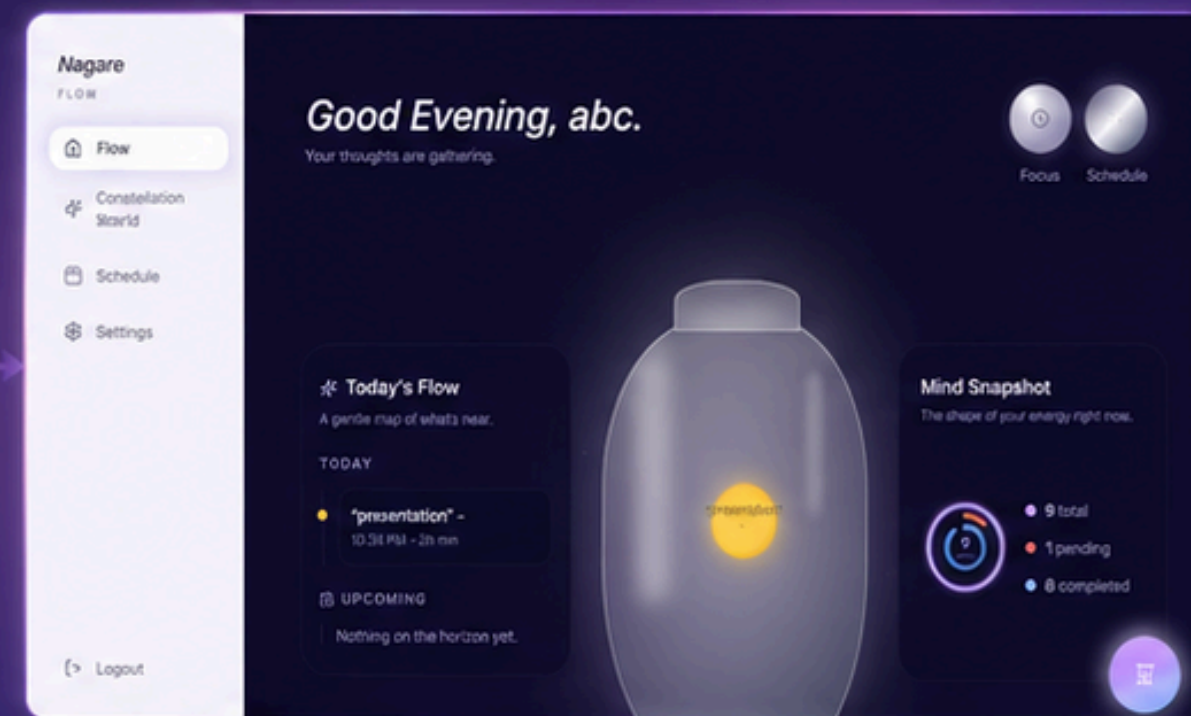

Nagare in action – from planning to focused productivity.

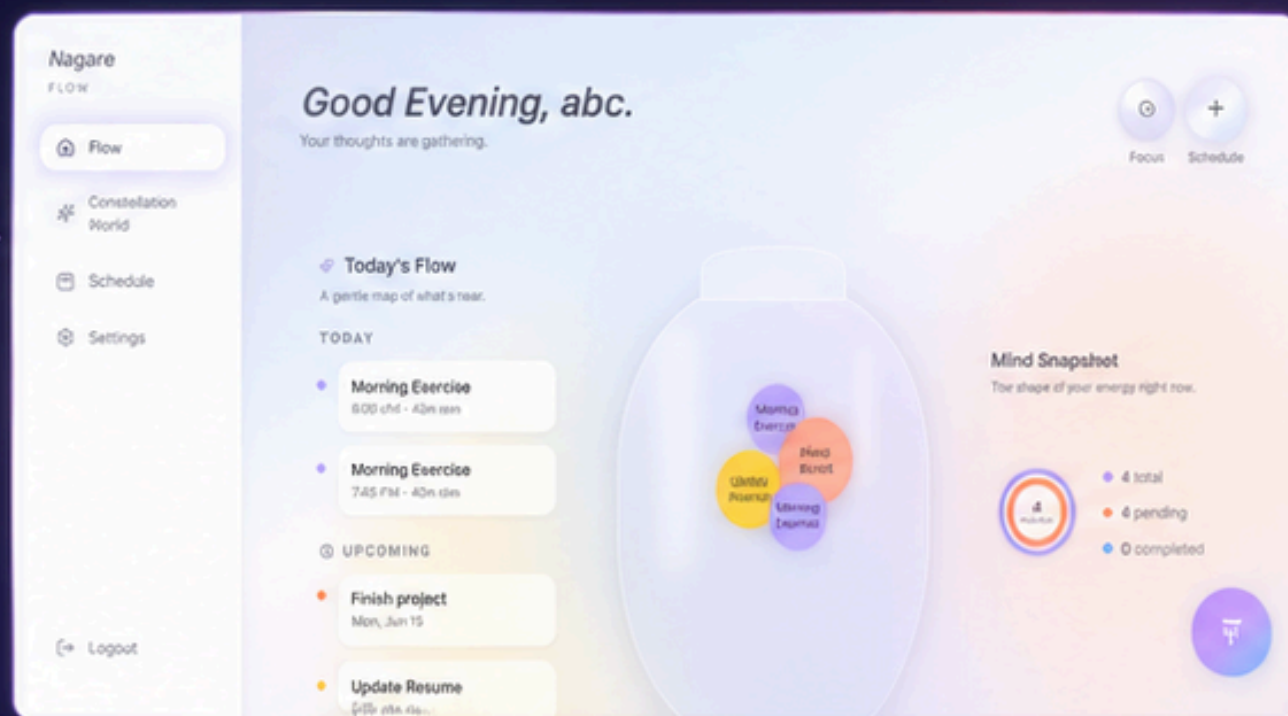

1 **Constellation World**
Visualize progress and stay motivated.

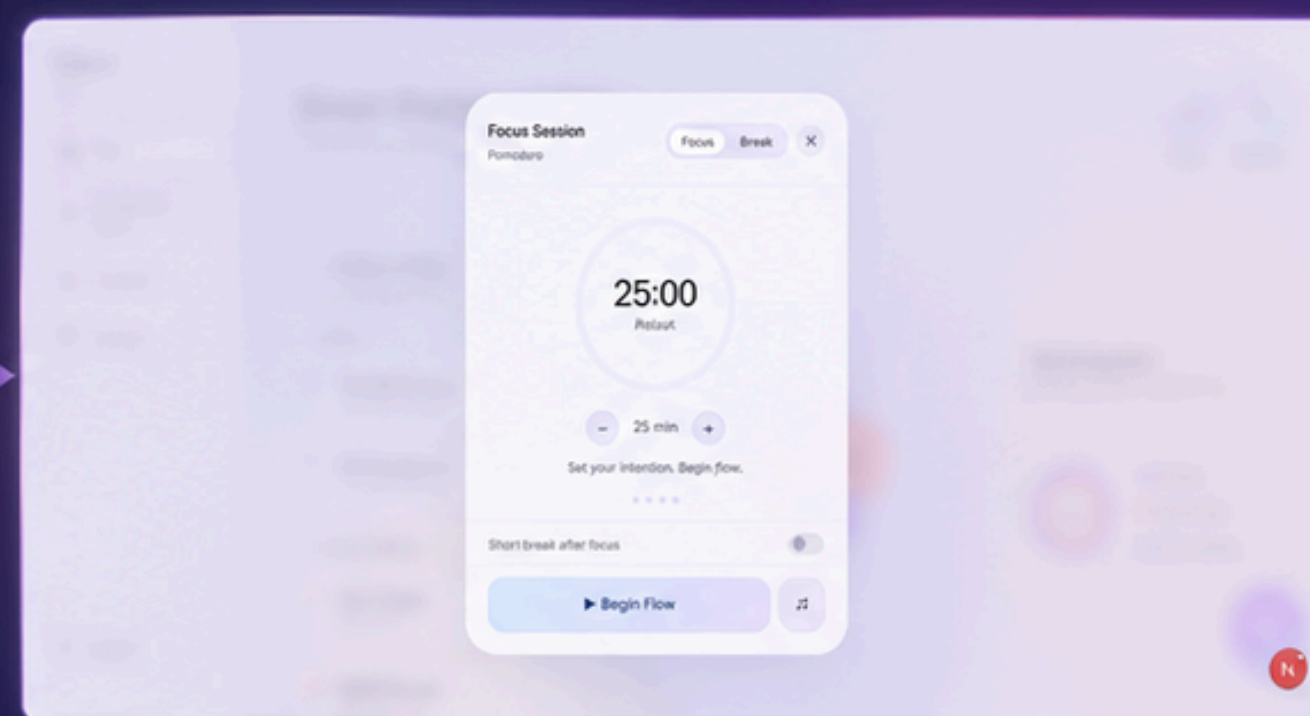

2 **Smart Schedule**
AI-powered planning that adapts to you.

3 **Personal Dashboard**
Get a clear view of your flow and focus.

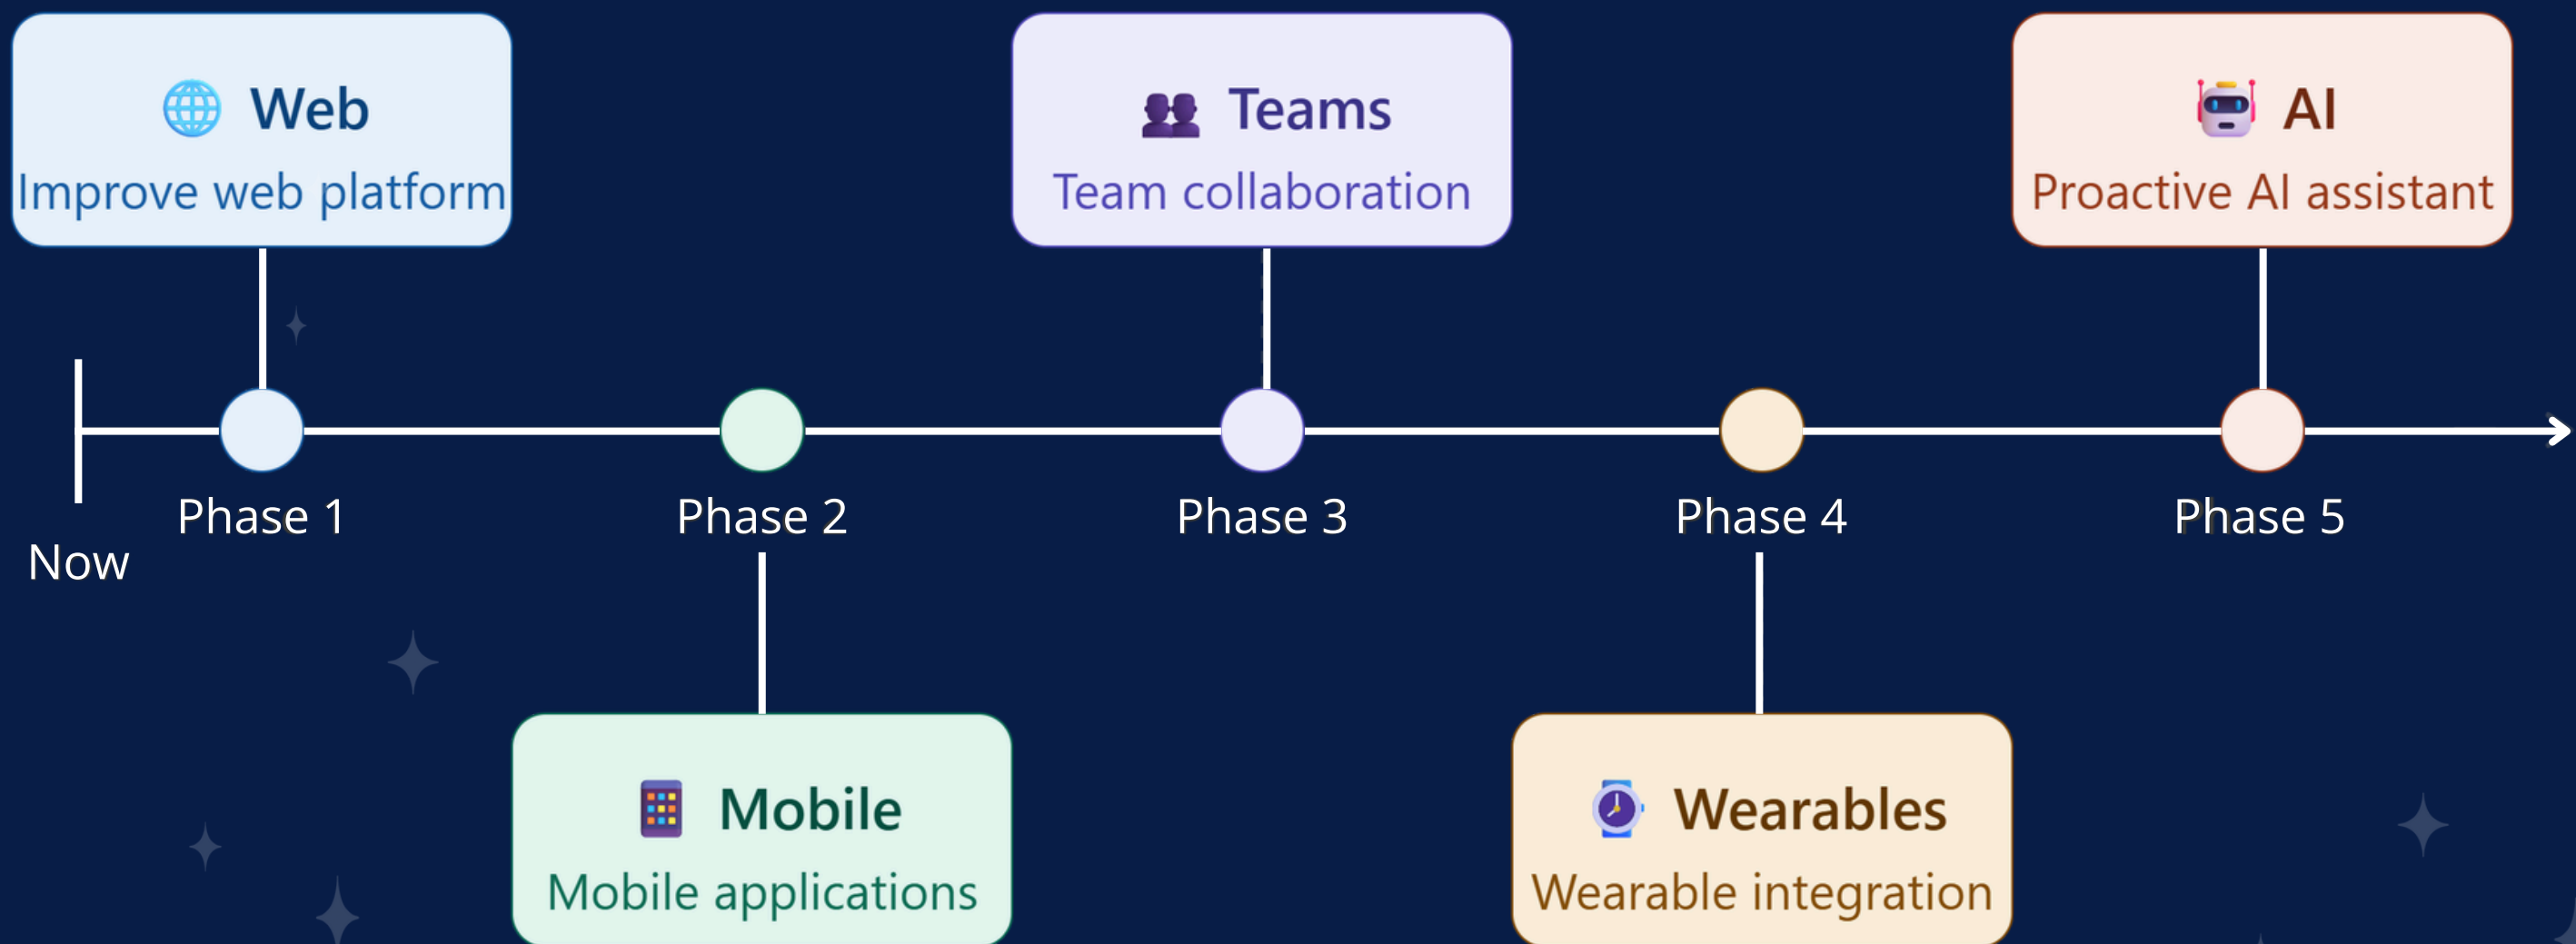

4 **Focus Mode**
Select what to focus on and eliminate distractions.

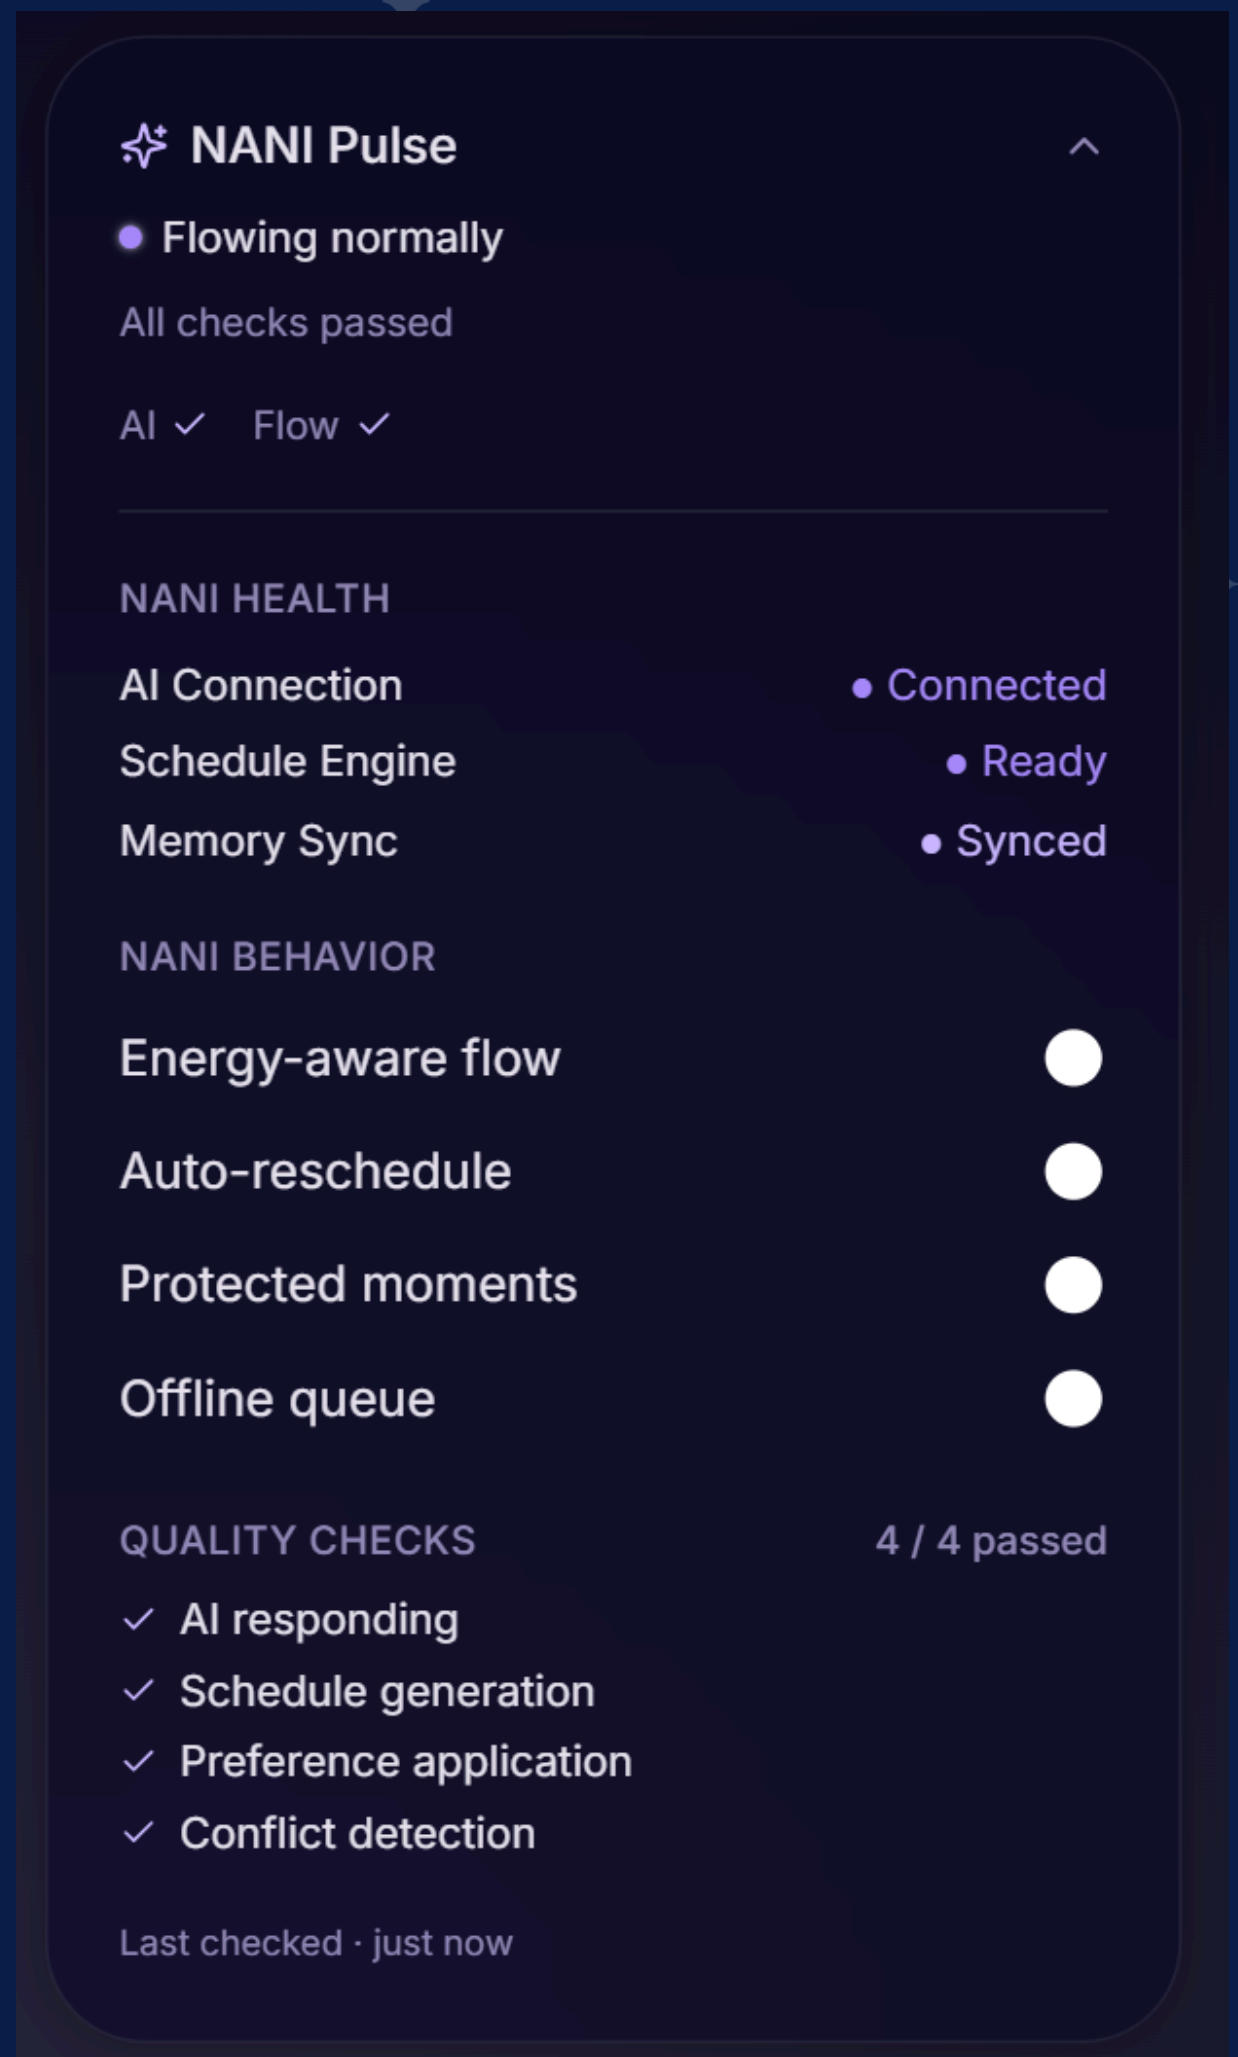

5 **Focus Session**
Stay in the zone with built-in Pomodoro timer.

Future Scope

Round 2 - Quality assurance: Maintainability Panel

Improve the part of your existing MVP most related to quality assurance so that it can show maintainers the configuration, status, or health of the modified capability. The feature should fit the existing product purpose without forcing the team into a specific theme or domain.
